KATHERINE FERNANDEZ RUNDLE
STATE ATTORNEY

INTEROFFICE MEMORANDUM

TO: FELONY DISPOSITION

DATE: 11/16/2026

FROM: Janeen Zamora
ASSISTANT STATE ATTORNEY

RE: CLOSE OUT MEMO

This case was set for trial on November 9th, 2026. The State requested a continuance of the trial as we had no contact with the victim. The court denied the continuance as it was the third trial setting wherein the State did not have any contact with victim. There was one other listed witness, but he was not present for any portion of the criminal act. He was involved after the fact, and his involvement was solely to assist the victim and defendant in calling for police. There was no video footage of the incident. Because there was no other direct evidence to the criminal acts, the State announced a nolle prose as we could not prove the case at trial without the victim's cooperation.

The State had been attempting to locate the victim since at least July of 2026. At that point, this ASA was assigned to the case and realized that we did not have contact through previous phone calls and availability sheets. This ASA attempted a phone call and email to the listed number and email address we had on file for the victim. It should be noted, these contacts are where we had originally established victim contact. The victim didn't respond to either call or email. Support staff likewise attempted contact to produce victim for deposition and was unable to make contact through phone or email. Subpoena was attempted and returned unserviceable as victim no longer lived at the listed address.

In October, this ASA requested additional locate attempts. An Accurint/background search confirmed the last known local address to be the last probable address. We sent additional subpoenas and contact letters. Subpoenas were returned because the victim no longer resided at that location since June of 2026 per building staff. An assigned officer was asked to check in and assist with a locate there. When officers attempted to locate the victim there, they were also informed by building management that the victim had moved out at some point in June of 2026.

Support staff also assisted in making contact attempts to all listed phone numbers that were returned from the Accurint search. Only one response was received from someone who mentioned knowing victim as kids through family friends, but who no longer had contact with her. Contact letters were escalated and were sent to the reported previous addresses, which were listed in Pennsylvania. Support staff established contact with the local police department in Pennsylvania. A wellness check was requested, and local police established contact with parents of the victim. They indicated they were estranged but provided a last known phone number to local police. Support staff attempted additional calls to this number as well but were still unable to establish contact.

The locate was then escalated to SAO investigations. They were able to confirm that victim was not associated with either FIU or UM as originally thought. They also tried to locate social media profiles to establish contact but could not confirm any accounts to victim. They were unable as well to establish contact with the victim or produce additional contact leads.

It should be noted that the last established contact this ASA could find between the State and the victim was under M26014114 – a misdemeanor case wherein defendant was arrested on charges related to the same victim in this case. That arrest occurred on July 14th, 2026. Notes show that on the day of arrest, the victim was contacted and informed the paralegal that she did not want charges filed and she refused to give a statement at that point. The phone number used there was the same number we had been using to try to establish contact with victim. The victim later came into the misdemeanor office unscheduled and repeated the sentiments about not wanting to proceed with the case. That case was No Actioned by the State on or about 9/16/2026 and subsequently sealed on 9/23/2026.
